# Vocera Installation

If you have used Vocera before, please follow the below instructions.
If you have never used Vocera, you will need to request access by putting a ticket in via the Support Desk.

1. Tap on the Intune Company Portal
2. Tap on Apps icon in the lower left corner, then tap on Vocera Notification Suite

3. Tap Install
4. Tap Install

5. Open Vocera
6. Tap OK when asked to access the microphone
7. Tap Allow to send Notifications
8. Tap on Personal Device
9. For Registration Type, select, "I have a Username and Password"
10. Server name: messaging.hs.uab.edu
11. Enter your username and password (i.e., your AD\Impact\Email username password, etc)
12. Tap Register.
13. Go back on your device and look for the Vocera icon. Tap to launch it. NOTE: If you see the word, "Cleaning" under the app, restart your device. When it restarts, Vocera should complete the install.
